

# Cloud Computing Practicals

## 2021/2022

Module assignments and resources

# Practical Work - Graded

Not all practical work will be graded.

- Some practicals will be graded and some others will be done during the lab session.
- Sample solutions will be posted on Brightspace for each practical. This will be done after the practical deadline.
- At the beginning of each practical, students will be informed whether it will be graded or not.

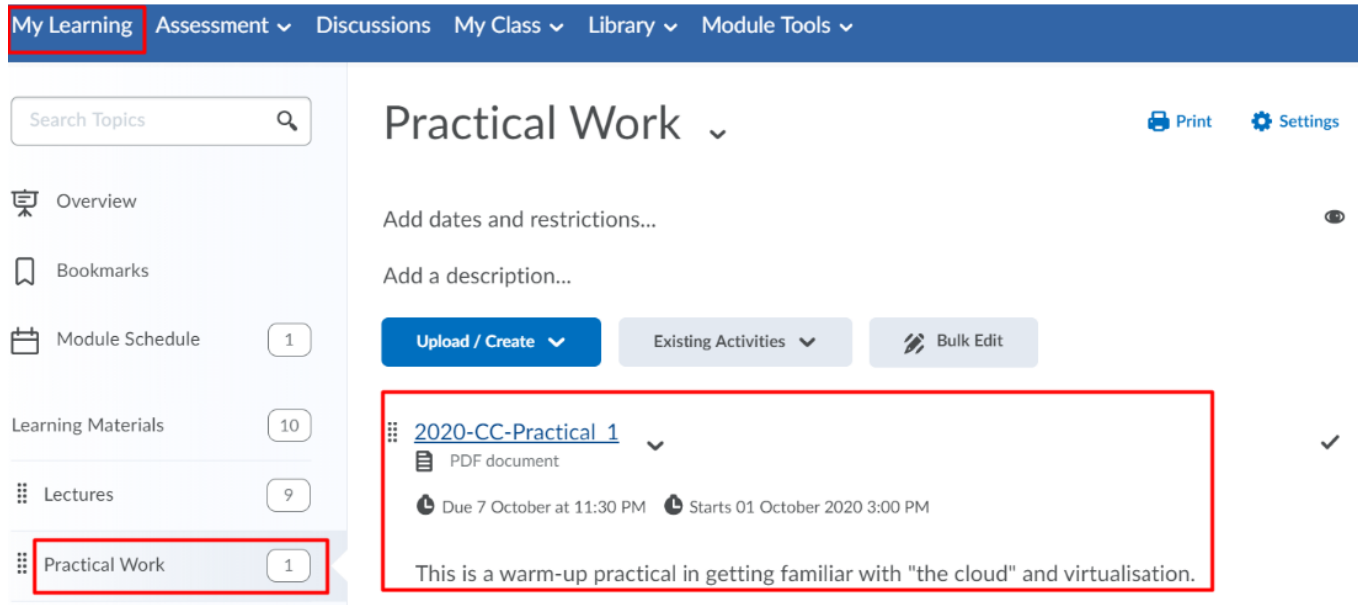

# Grading and Submission

- We use UCD grading system to grade your practical work.
- Deadlines, extensions and submission formats are specific in every practical work.
- All graded practical submissions have equal weights.

## Submission:

- Please follow the recommended format for submitting your work.

2020-CC-Practical 1 ▾

PDF document

Due 7 October at 11:30 PM Starts 01 October 2020 3:00 PM

This is a warm-up practical in getting familiar with "the cloud" and virtualisation.

# Submissions via Brightspace

The screenshot displays the Brightspace user interface. At the top, a blue navigation bar contains the following links: My Learning, Assessment (highlighted with a red box), Discussions, My Class, Library, and Module Tools. Below the navigation bar, the page title 'Assi' is partially visible. A dropdown menu is open under the 'Assessment' link, with 'Assignments' (highlighted with a red box) selected. Other options in the menu include Quizzes, Originality Checker, Feedback and Progress, and Grades. To the right of the menu is a 'More Actions' button. Below the menu, a table displays submission data. The table has columns: New Submissions, Completed, Evaluated, Feedback Published, and Due Date. The first row shows 'No Category'. The second row, highlighted with a red box, shows 'Practical 1 Submission' with a dropdown arrow, followed by values '0/59', '0/59', '0/59', and a due date of '07 October 2020 11:30'.

	New Submissions	Completed	Evaluated	Feedback Published	Due Date
No Category					
Practical 1 Submission		0/59	0/59	0/59	07 October 2020 11:30

# Assignment report

- Submit a short report (in PDF format) explaining your implementation and your methodology..
- Submit your report in a “PDF”, not a doc, docx, txt...
- **It has to be a pdf.**
- pdf please!

# Late Submissions

Late submissions will be allowed till 6 days after the practical deadline

Penalty of 10% would be applied on all late submissions

## Most common mistakes

- Very verbose reports were submitted: please **respect the required page limit!**  
And use **PDF!**
- Many people do not follow the submission structure.
- Double check your submission before finalizing it (do not submit empty files!)

# Plagiarism policy

In previous years, we notice odd similarities between submissions. Also, unexplainable things may happen:

- Right answers are given with no explanation, or no code backing them up
- Mismatch between folder in code and folder submitted

We check submissions with an automated system for detecting identical or suspicious code.
